Dear: Mr. Joe Buyer

Before we process your order: 123456789LOCK
For spare keys/lock parts, the following must be taken into consideration.

The purpose of sequential interlocking is to safeguard your employees and protect your equipment. We at Superior have no way of evaluating the need for spare keys and replacement parts necessary for your interlock system. We do realize the need for replacements, but must emphasize the danger of misuse of such equipment. Duplicate keys and locks defeat the purpose of an interlock system, therefore these duplicates should be controlled by responsible people.

We must ask you, prior to our supplying such extra equipment, to recognize that Superior Interlock Corporation is not liable for misuse of spare keys, parts or master keys which might result in death or injury to any person, both employees or third parties.

Please sign this form and return it to us so we may process your order. Retain a copy for your files.

This is to certify that I, the undersigned, have been authorized to accept full responsibility for The above.
